Flexible Fees Mastery

Community, Courses and Coaching

Flexible Fees Mastery is a community dedicated to making your move to a flexible fee model successful, meaning more profit for you and your business.

We've been speaking about, and training agents on flexible fees for over a year.

The problem we see over and over again is agents needing more than a one day training course to change the habit built up over a career.

Flexible Fees Mastery is for anyone involved in listing in the UK estate agency market.

Listers, branch managers, self-employed agents and business owners.
